

NO. 1.

REVIEW OF

The New Currency Law

"The Reserve Bank Organization Committee"

Secretary of the Treasury.....W. G. McAdoo of New York
 Secretary of Agriculture.....David F. Houston of Missouri
 Comptroller of the Currency.....John Skelton Williams of Virginia.

This Committee was created by the terms of the Act for the purpose of fixing the lines dividing the United States into not less than eight, nor more than twelve districts, and supervising the organization of one Federal Reserve Bank in each district, the location thereof to be selected by the Committee with due regard for the natural trend of commercial business in that district.

The Committee is now holding public hearings in the principal cities of the United States for the purpose of ascertaining where the banks should properly be located, and the number necessary. Political influence has been forbidden, and the needs of legitimate business are being carefully considered.

The findings of this committee are not subject to change or review except by the Federal Reserve Board, to be appointed by President Wilson, which will have the power to readjust the districts from time to time.

OF ARDMORE

STREET STORIES.

Mrs. W. P. Davis who has been ill for the past five weeks, is still quite sick, although she was reported somewhat better yesterday.

Moran Scott sold to Ran Webb a residence on D street, S. W., yesterday afternoon, consideration \$2,500.

Daniel Boone, president of the Midland Life Insurance Company of Kansas City, was here yesterday. He heard of Ardmore and the oil fields and stopped off to see the growing

town. He will be back here within two weeks to appoint an agent and to organize the work here for his company.

Joe Helbach, son of R. Helbach of the Theatorium, is reported to be quite sick from an attack of pneumonia.

The retailers association were to have met in regular session at the commercial club rooms Friday night, but on account of the inclement weather so few came that it was decided to postpone the meeting until some future date.

Dr. C. L. McCan left here yesterday accompanied by Mrs. McCan whom

he is taking to the Mayo hospital in Rochester, Minn., to undergo an operation for cancer.

Mrs. James Whitfield who underwent another operation at the Hardy sanitarium a few days ago is reported to be getting along nicely. Otto Brueggemeier, who was operated on again the other day, is also doing as well as could be expected.

J. A. Steakley has a contract to build two brick bungalows on C St., N. W., for Mrs. Hardwick. Both cottages are rented before construction work begins.

C. W. Clay returned from the oil fields yesterday, where he did surveying for the Red River and Kalamita companies. He says the fields double every month in population and in the number of rigs.

The engineer who is going over the survey of the interurban, phoned in yesterday from Woodford. He stated that he was well pleased so far with the tonnage prospects. He was kept at Woodford a day and a half on account of the severity of the weather.

Personals

L. R. Crowell is a visitor in the city from Waurika.

L. J. Green of Overbrook was in the city yesterday on business.

J. M. Davis of Sulphur was in the city yesterday on business.

M. A. Looney, W. F. White, Alex. Renne and C. B. Thomas of Tishomingo were Ardmore visitors yesterday.

Chas. J. Gill of Hewitt was here yesterday.

Mrs. V. E. Bronough of Pampa, Texas, left yesterday for Ada and Sulphur after a pleasant visit with her sister, Mrs. Paul Jones.

Rev. W. R. Selvidge left here yesterday for Berwyn where he will preach today.

Mr. and Mrs. J. T. Morris of Rush Springs, who have been here visiting their brother-in-law, E. T. Taylor, and family have returned to their home.

Jesse Holland was here yesterday afternoon from Oil City. His daughter, Mrs. Lona Mitts of Overbrook, who had been visiting with them came to Ardmore with her father en route to her home at Overbrook.

Americans Fond of Cocoa.

The United States consumes more than 25 per cent. of the total production of cocoa, or over 60 tons per annum. Germany consumes almost 50 tons, and France 28,044 tons each year. Great Britain uses over 25 tons, so it may be seen that this is an enormous industry, and one of the most valuable products grown.

See our WINDOW DISPLAY of these GREAT BARGAINS

These prices are sure to move them and if you want to secure a bargain in pants, come early tomorrow morning

Westheimer & Daube

WOMAN DEALER IN OIL FIELDS

MISS SARAH ADAMS HAS CLOSED SOME OF THE BIGGEST DEALS IN HEALDTON FIELD

Among those who are trading industriously for profits in the Healdton field, are several women and of these Miss Sarah Adams, who registers at the hotels, from Cornish, is the most active. Miss Adams began work in the field early, she traded at Duncan and Loco before the Healdton field was discovered and from the day the first well was brought in, up to this time she has been very active. She sold the Smalley lease to Gunsburg & Forman and in that one deal she made more than the average man's salary for a year. She also closed the deal for the royalty of Alex. Hammond and in leases and in royalties she has sold the highest priced stuff in the field. During the past week she closed some large deals in the field and is often up in her room until 1 o'clock awaiting telephone calls from a distance from oil men with whom she has pending deals.

Miss Adams secured a large acreage between Ryan and Cornish in Jefferson county and after getting the acreage, she made a deal with a California company to develop it. Her work is along constructive lines as well as mere lease selling and profit taking.

Miss Adams has holdings of her own in 3-7, 4-3 and in 4-1. She will drill before very long on the Gene Wolkerton lease in 23-1-4. Over in section 1-4-3 she holds 200 acres and will organize a company of \$25,000 capital to develop it.

She says the Healdton fields are inspiring. From one point as many as forty derricks can be counted, and some days when there are several wells spraying, the people get excited and turn loose their money for holdings.

Miss Adams has operated millinery stores and has managed hotels. She was in the hotel business in Chickasha when she began trading in oil properties. She has been handicapped in her work from the fact that many men will not deal with a woman, but seemingly she has not allowed anything to discourage her, and has gone ahead with her work. She possesses all the refinement of the woman who stays in the home. She dresses simply but neatly. Like a majority of other women she suffers from ill health, which impedes her success to some degree but she is learning to cast off her feelings and the excitement of an oil deal often cures a bursting headache. She is a southern woman and claims Arkansas as her native state. While she has made some money in her operations she is by no means rich, but in case her holdings should prove to be oil territory, she will be able to retire on a comfortable fortune when the Healdton field is thoroughly developed.

WEATHER FORECAST.

New Orleans, La., Feb. 7.
 —The weather forecast for Oklahoma for Sunday is fair and warmer in the eastern portion.

Rearranged.

The choir wished to sing a hymn the first verse of which ended: "The night is falling. Heaven help us as we're calling." But as they wished it for morning service, the leader suggested that they change the wording of it a bit. A young man dutifully proposed the following amendment: "The morn is dawning. Heaven help us as we're yawning."

Our Eyes Tint the World.

We view the world with our own eyes, each of us, and we make from within us the world we see. A weary heart gets no gladness out of sunshine; a selfish man is skeptical about friendship, as a man with no ears doesn't care for music.—William Makepeace Thackeray.

Shock Was Too Great.

Policeman—"Do you know this sick man?" Interested Bystander—"No. I only just met him. He seemed a nice sort of a fellow; he shook my hand and we chatted a while, and I told him I was Seth Pinewood from Pennsylvania, and that I'd come on with one thousand in cash to see this here town. I ast him if he knew of some young feller as could show me around, and then he threw up his hands and fell down!"—Puck.

Have Long Mined for Rubies.

The world's richest ruby mines, in Upper Burma, are known to have been operated since early in the seventeenth century.
